

**PROPOSAL 145**

**5 AAC 85.045. Hunting seasons and bag limits for moose.**

Modify the nonresident bag limit for moose in Unit 25C as follows:

**Nonresident hunters, Unit 25C: One bull with 50-inch antlers or antlers with four or more brow tines on at least one side, Sept. 5 - Sept. 15.**

[NONRESIDENT HUNTERS, UNIT 25C:ONE BULL SEPT. 5 - SEPT. 15.]

**What is the issue you would like the board to address and why?** In Unit 25C nonresident hunters can harvest ONE BULL. Due to the low moose density in Unit 25C, Alaska residents should take priority over nonresidents in harvesting the small bulls. The primary intention is to benefit resident Alaskans so that they can put food on their tables.
