

PROPOSAL 10

5 AAC 84.270. Furbearer trapping.

Allow the harvest of beaver by bow and arrow under a trapping license with salvage requirements in Units 9, 11, 13, and 16 as follows:

From page 31 of the Alaska trapping regulations summary book:

It is against the law to take beaver by any means other than a steel trapper snare except:

In Units 9, 11, 13, 16 and 17 beaver may be taken throughout the trapping season with firearms or bow and arrow as long as the hide or meat is salvaged.

[IN UNITS 9 AND 17 FROM APRIL 15 - MAY 3, A FIREARM MAY BE USED TO TAKE 2 BEAVER PER DAY PROVIDED THAT THE MEAT IS SALVAGED FOR HUMAN CONSUMPTION; AND IN UNIT 17 A FIREARM OR BOW AND ARROW MAY BE USED TO HARVEST BEAVER FROM DECEMBER 1 - APRIL 14, PROVIDED THAT THE MEAT IS SALVAGED;]

[AND IN UNIT 16 A FIREARM MAY BE USED TO TAKE BEAVER THROUGHOUT THE TRAPPING SEASON.]

What is the issue you would like the board to address and why? There is significant discrepancy in the legal method and means for taking beaver in the Central/Southwest Region. There is apparently no scarcity of beaver because there is no limit to the bag limits. This proposal would simplify the regulations for legal method and means for harvesting beaver and make them uniform over most of the units within this region. In most of Interior/Northeast it is legal to take beaver with steel traps, snares, firearms and bow and arrow. In most of western Alaska it is legal to "shoot" (does not specify firearms) beaver throughout the season as long as the hide or meat is salvaged. There seems to be no good reason to prohibit taking beaver using firearms or bow and arrow during the entire trapping season in Units 9, 11, 13, 16 and 17 as long as the hide or meat is salvaged.

PROPOSED BY: John Frost
