Re: Support for ACR 4

Chair Hoffman and Members of the Alaska Board of Game,

At its November 10, 2021 meeting the Fairbanks area Fish & Game Advisory Committee (FAC) considered ACR 4, to limit or restrict all nonresident sheep hunting in Unit 19C, submitted by Resident Hunters of Alaska. The FAC voted 13-1 in support of the Board accepting the ACR and scheduling the issue for full consideration within the current regulatory cycle.

Sincerely,

Kirk Schwalm  
Chair Fairbanks Fish & Game Advisory Committee
