

PROPOSAL 171

5 AAC 92.450. Description of game management units.

Divide Unit 19A into two subunits as follows:

The description of the eastern boundary of **Unit 19A** will be the same description for the TM680 moose hunt in the ADF&G Hunting Regulations book.

That is – *“The Kuskokwim River drainage downstream from, and including the George River drainage, and downstream from and excluding the Downey Creek drainage.”*

The description of the western, (same), border of **Unit 19E** will be - *“The Kuskokwim River drainage upstream from, and excluding the George River drainage, and upstream from, and including the Downey Creek drainage.”*

Note: The Stony Holitna Advisory Committee submitted maps with this proposal which are available on the Board of Game proposal book webpage at: www.adfg.alaska.gov/index.cfm?adfg=gameboard.proposalbook or by contacting the ADF&G Boards Support Section at (907) 465-4046.

What is the issue you would like the board to address and why?

The division of Game Management Unit 19A into two subunits - 19A West to remain 19A and 19A East to become 19E.

Background Information:

The Tier II hunt in 19A West and the Closure in 19A East, came about in 2006, primarily because residents in the two areas had/ have fundamentally different views on moose management.

There are two Advisory Committees in 19A –

- Acting in the interests of western 19A - The Central Kuskokwim Advisory Committee (CKAC), representing five villages – Lower Kalskag, Upper Kalskag, Aniak, Chuathbaluk, and Crooked Creek.

- Acting in the interests of eastern 19A - The Stony Holitna Advisory Committee (SHAC), representing four villages – Red Devil, Sleetmute, Stony River, and Lime Village.

The existence of two separate Game Management Units will simplify and facilitate wildlife management by ADF&G in each of the new subunits, particularly in regard to moose.

There are several differences between the two areas that offer compelling reasons for the division of 19A.

This following info is excepting the Lime Village Management Area, LVMA.

- Although all of 19A is designated as an Intensive Management Area, and qualifies for aerial wolf predator control, this program has been operational only in 19A East since 2009.
- 19A has two identified moose stocks, with two separate harvestable surpluses, which are managed separately by ADF&G.
- 19A East and West have different use patterns from each other.

- There are two separate hunts in 19A- RM682 in 19A East & TM680 in 19A West.
- SHAC and CKAC want these hunts to continue to remain separate.
- The topography of those portions of 19A that is accessible by boat is mainly heavily timbered, upland in the west, and mainly lowlands with both tundra and timber in the east.
- Land ownership is mainly federal and native corporation land in the west, and state and Native corporation land in the east, which has negatively affected the success of predator control programs, due to its prevention on both federal and Native corporation land. *In 2019, the local Native corporation board voted to allow predator control on its lands. This will contribute to the success of the two predator control programs in both 19A East and 19A West.*
- As of the March, 2020 Board of Game meeting, 19A West now has a separate predator control program

PROPOSED BY: Stony Holitna Fish and Game Advisory Committee (HQ-F20-032)
