Jackie wanted a report from the subsistence division about the survey.

On the survey need to put where they harvested the subsistence salmon on the survey. Jackie Cleveland stated to Honor tribal resolutions.

Also said that the local fishermen wanted to go to their favorite fishing spots but, it is occupied by the Outfitters.

She talked about the pollution in their rivers like old appliances, vehicles, etc. that would affect the salmon and other fish. The rules need to be reinforced.

She said too late to put proposals for moose. The call for proposal is in the fall time.

Susan Walter talked about the outside fishermen that they see along the coast. She don't mind them when they past by. Sometimes they dispose trash that float along the shores. Our elders told us that some species we use for subsistence will no longer be available.

Sam Weston wanted to know who does the survey on the musk ox. F&G stated it's Patrick Jones and the pilot. They always take picture. Sam wanted the residents to be involved in the musk ox surveys.

Tommy K. said that many of the villages were closed to salmon fishing and the Traditional Councils are able to work with F&G to get the solutions.

Stan Atchak talked about the summer fishing when F&G ordered us to stop subsistence fishing for salmon. We were permitted to use small mesh nets to take other fish instead of salmon. We were lucky when the CVRF gave us salmon where they were caught from another area. The moose hunting was good for the people of Chevak because most or all of the hunters were successful. We support the antlerless hunt because of the many moose we have in our area.

Susan Walters make a motion to adjourn, seconded be y Samuel Weston. Motion passed and adjourned at 12:04pm.90456k
