What is the issue you would like the board to address and why? At the 2019 Board of Game meeting, the board established a new hunt, DG364, and separated the late season of RG364 and RG365 into RG374 and RG375 to aid ADF&G in the distribution of tags and tracking hunts in these management areas. When these new hunts were established, the board was asked to clarify that the five year no hunting penalty that has been listed in the handy dandy hunting regulations applies to all Kenai hunts. Unfortunately, the codified wording was not clarified. Since 2009, the general public including the communities of Seldovia, Nanwalek, and Port Graham have been under the impression that if a hunter harvested a nanny in these hunt areas, he or she was unable to hunt goats on the Kenai Peninsula for five years. The regulation wording available to the general public has read “If a nanny is taken, the hunter is prohibited from hunting any goats in Units 7 & 15 for 5 regulatory years”. The local communities understand the importance of limiting harvest to billies to preserve the integrity of the hunt and encourage their hunters to do so.
