

The Board of Game does not have authority to regulate transporter activity.

PROPOSAL 191

A transporter shall transport hunters in Prince William Sound every year or Kodiak Island, but not both.

What is the issue you would like the board to address and why? Transporters on Kodiak Island is what I would like to address. There are too many. Every year more and more. There is no cap on them, no limit, just more every year. I propose like guide areas with hunting guides, a limit on transporter areas.
