

The Board of Game does not have authority to regulate guide activity,

PROPOSAL 195

Any individual cannot hold more than one federal exclusive guide use concession area for Units 8 or 9.

What is the issue you would like the board to address and why? Too many guide concession permits are concentrated with too few individuals creating a monopoly in hunt areas of Units 8 and 9. Additional guides operating will help with competition and create a more healthy system of competition and price.
