

**PROPOSAL 202**

**5 AAC 85.056. Hunting seasons and bag limits for wolf.**

Set the season length for taking wolves in Unit 2, without closing early due to emergency order as follows:

The last board cycle, ADF&G submitted a new Unit 2 Wolf Management Plan. They followed it for one year and have since disregarded it and catered to outside special interest groups for wolf preservation. Unit 2 has an overwhelming high wolf population. I'm asking the Board of Game to come up with some protection so the wolves can be managed in Unit 2 without ADF&G interfering with the wolf management season.

**What is the issue you would like the board to address and why?** Unit 2 wolf season: set season length without interference of emergency closures.

**PROPOSED BY:** John Ryan
