

PROPOSAL 25

5 AAC 85.045. Hunting seasons and bag limits for moose.

Increase the number of moose drawing permits issued to nonresidents for Unit 17A as follows:

Allow for more nonresident draw tags to be issued. The management plans allows for a maximum of 50 nonresident tags. In 2023 only **six** moose were harvested from 20 tags issued in Unit 17A. With a healthy population that is 50% over the recommended population, allowing for another 30 tags would likely result in less than 10 more moose being harvested.

What is the issue you would like the board to address and why? ADF&G surveys in Unit 17A have identified an estimated 1,200 moose. Eight hundred moose is what the Department of Fish and Game has deemed to be the ideal highest population of moose in that area.

Did you develop your proposal in coordination with others, or with your local fish and game advisory committee? This has been a proposal I have come up with.
