

PROPOSAL 78

5 AAC 92.122. Intensive Management Plan VI.

Allow the same day airborne take of wolves in the active, Unit 16 Intensive Management Plan as follows:

Change the regulation so if the intensive management is active, hunters or trappers holding a current license can hunt same day airborne as long as 300' from airplane. If the intensive management area is inactive, we go back to the past 3 a.m. regulation.

What is the issue you would like the board to address and why? Change same day airborne for wolf in active intensive management areas to allow hunting same day airborne as long as 300' from the airplane. I believe it should be allowed in the predator control areas for hunters and trappers to have the opportunity to shoot the same day airborne when the state is allowing aerial shooting but only to a few approved pilots and gunners.

Did you develop your proposal in coordination with others, or with your local fish and game advisory committee.
