

Opposition to the State's RC009

3/24/25

To Whom It May Concern:

I am writing and assert my strong opposition to State's RC009. There has been a lack of *independent* scientific evidence that there is a need for "predator control". In addition, the court ruling was clear and ruled against this terrible predator control policy. This seems to be an attempted run around the ruling which is unethical and morally wrong.

Thank you,  
Eli Celli
