

PROPOSAL 189

5 AAC 85.020. Hunting seasons and bag limits for brown bear.

Limit the nonresident permit allocation for the brown bear drawing hunt DB470, to “up to” 20% of the available permits as follows:

What solution do you recommend? In other words, if the board adopted your solution, what would the new regulation say?

Limit nonresident permit allocation for drawing hunt DB470 to UP TO 20% of the available permits.

What is the issue you would like the board to address and why?

Limit the number of tags that may be drawn by nonresidents for drawing hunt DB470.

There is currently no cap on how many tags may be drawn by nonresidents.

If nothing is changed residents will continue to lose opportunities to hunt in easier accessible areas that are limited to drawing hunts because of said access issues. The nature of many hunts in Alaska requires that hunters use expensive modes of transportation to access an area to hunt. Many of the drawing hunts are only restricted to drawing because they are in easier accessible areas. Even where access is not the primary limiting factor Alaskan residents are being out competed by guided nonresidents in the draw by outfitters and license application services.

Did you develop your proposal in coordination with others, or with your local fish and game advisory committee?

No
