

PROPOSAL 61

5 AAC 85.035. Hunting seasons and bag limits for elk.

Limit the nonresident permit allocation for the elk drawing hunt DE323, to “up to” 10% of the available permits as follows:

What solution do you recommend? In other words, if the board adopted your solution, what would the new regulation say?

Limit nonresident permit allocation for drawing hunt DE323 to UP TO 10% of the available permits. If at least ten permits are not issued a non resident permit will not be available.

What is the issue you would like the board to address and why?

Limit the number of tags that may be drawn by nonresidents for drawing hunt DE323.

There is currently no cap on how many tags may be drawn by nonresidents.

If nothing is changed residents will continue to lose opportunities to hunt in easier accessible areas that are limited to drawing hunts because of said access issues. The nature of many hunts in Alaska requires that hunters use expensive modes of transportation to access an area to hunt. Many of the drawing hunts are only restricted to drawing because they are in easier accessible areas. Even where access is not the primary limiting factor Alaskan residents are being out competed by guided non-residents in the draw by outfitters and license application services. Additionally caribou, moose, bison, muskox, black bear and elk do not require a guide and non-guided nonresident interest in these species is increasing.

Did you develop your proposal in coordination with others, or with your local fish and game advisory committee?

No
