Why NCEAS?

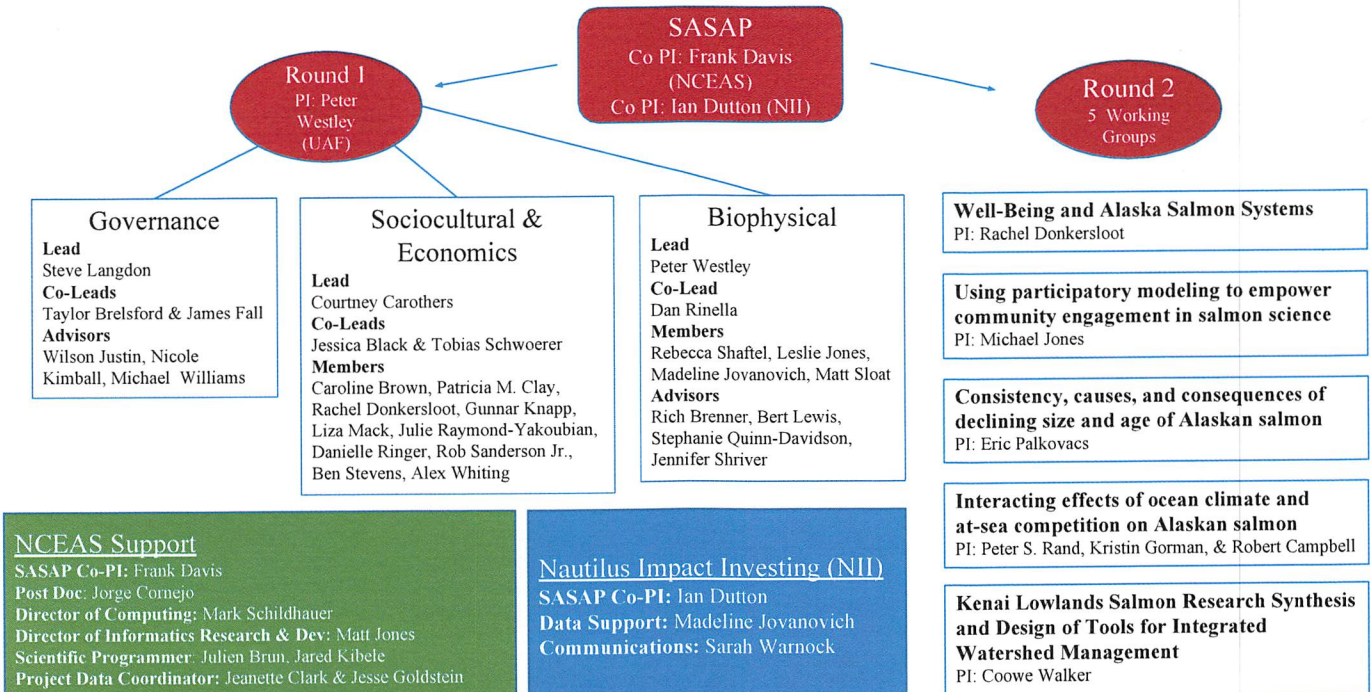

www.nceas.ucsb.edu

- NSF Center 1995-2013
- UCSB Research Unit 2014
- >500 synthesis projects
- *NSF Long Term Ecological Research Network Communication Office*
- *NSF Arctic Data Center*
- *Science for Nature and People Partnership (SNAPP)*
- *Gulf of Alaska Synthesis*
- *Long-term Foundation partner*

State of Alaska's Salmon and People (SASAP): 106 participants

NCEAS Support

Staff

Matt Jones, Director of Informatics and R&D (*Juneau*)

Responsible for deliverables. Driving the Data Task Force project; providing technical training and guidance on tools to assist Working Groups in managing, tracking, and archiving data.

Mark Schildhauer, Director of Computing (just retired) (*Santa Barbara*)

Drives how NCEAS infrastructure is used and assists Working Groups in utilizing infrastructure. Fosters a culture of sharing knowledge (codes, data formats, etc.) that have been useful to other WGs.

Julien Brun, Scientific Programmer (*Santa Barbara*)

Assists Working Groups in the use of NCEAS analytical & collaborative tools and infrastructure.

Jeanette Clark, Project Data Coordinator (*Santa Barbara*)

Jesse Goldstein, Project Data Coordinator (*Santa Barbara*)

Jorge Cornejo, SASAP Post Doc (*Santa Barbara*)

Graduate student interns

~6 FTE trained by the Projects Data Coordinator and responsible for GitHub ticketing, tracking down data, metadata cleaning, etc.

Jared Kibele, Scientific Programmer 50% SASAP, 50% DTF;

Software Developer Part time, to help develop the salmon data portal as a part of the KNB

Abstract Every three years, the Alaska Board of Fish (Board) calls for regional fisheries management proposals, inviting the public to directly participate in fisheries governance. Anyone can submit a proposal and provide written or oral testimony on any of the proposals, which constitute potential regulatory changes and are accessible in an online proposal book. Proposals are logged by Board staff and recorded in the meeting documents, which are stored online and archived at the State, Library, Archives, and Museum (SLAM) in Juneau. Each proposal

Other research questions...

Ship Creek, Anchorage, Alaska

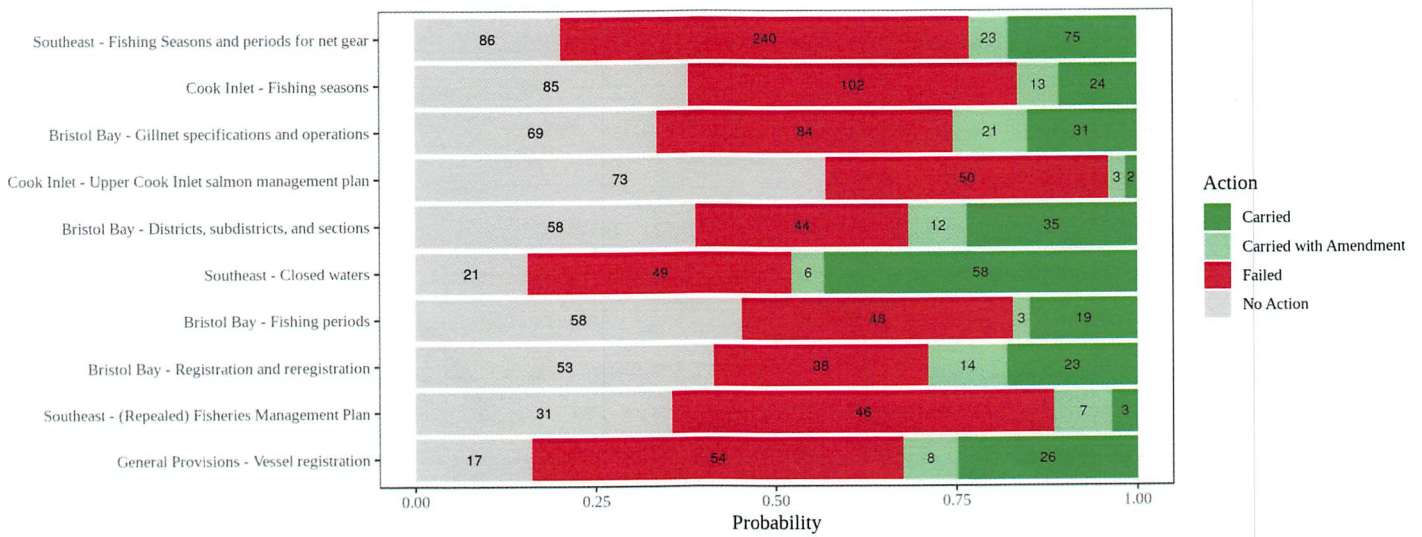

- Which regulations solicit the most proposals over time?
- Where have Board of Fisheries meetings been located over time?
- Which regions are the most successful?
- How many "repeat" proposals are submitted?
- Is participation increasing or declining in each group and region?
- Are women participating in the proposal submission process?
